### Austin Water Utility

### Addition to System Fee

Water tap fees for all second connections, increases to the existing installed meter, and/or water meters larger than two inches (2") are calculated on the total labor costs, transportation and equipment costs, materials and supply costs, plus indirect and overhead costs for the connection.

Wastewater tap fees for all second connections and/or wastewater connections larger than six inches (6") are calculated on the total labor costs, transportation and equipment costs, materials and supplies costs, plus indirect and overhead costs for the connection.

If the facility requiring wastewater service consist of more than fifteen living units (including, but not limited to apartments, motels, hotels, nursing homes, hospitals, etc.) or is of a commercial and/or industrial nature in excess of 4,000 square feet, a review by the Utility will be conducted to determine the need for a manhole in the sewer line. In the event that a manhole is required, the charge shall be calculated on a cost basis.

Minimum total fee (for processing of the plat through final plat approval) - In every case where a subdivision requires City inspection of any construction of water or wastewater facilities with an estimated construction cost of \$4,285.00 or less.	Engineering Roview & Inspection Fee Fee for processing of the plat through final plat approval In every case where a subdivision does not require construction of streets, drainage, water or wastewater facilities or improvements to existing water and wastewater facilities.	Emergency Repair Cut Off/On Fee Fee added to Utility Bills for customer requests for Utility to cut off/on service to water meter for repairs or other miscellaneous reasons.	Dillo Dirt Sales Cost per cubic yard	Irrigation Seminars 1/2 Day Seminar Full Day Seminar	Conservation Based Fees Rain Barrels City of Austin Customers Non-City of Austin Customers	Backflow Prevention Compliance Fee  Annual fee the Auslin Water Utility (AWU) charges to its potable and reclaimed water high hazard customers or fire sprinkler systems that have backflow prevention assemblies on their plumbing systems that are required by the State of Texas or City of Austin regulations to be tested and the results of the tests reported back to the AWU on an annual basis to help the utility ensure that its customers are protected from possible contamination or pollution due to a backflow event. Fee is per backflow assembly.

### Austin Water Utility

# Engineering Roview & Inspection Fee (continued)

Fee based on percentage of total cost of construction project - In every case where a subdivision requires City inspection of the construction of streets, drainage, water or wastewater facilities, either singularly or in any combination, the Utility shall assess a fee based on the engineer's construction estimate of the improvements as calculated by the Utility in accordance with the following table:

Field Estimate Fee Cost per Estimate	Fee for Service Extension Request with Council Approval Cost per acre served Minimum Charge Maximum Charge	Fee for Service Extension Request with Administrative Approval Cost per review	Evaporative Loss Credit Application Fee Non-refundable application and processing fee		3,000,000.01 - 5,000,000.00	2,500,000.01 - 3,000,000.00	2,000,000.01 - 2,500,000.00	1,500,000.01 - 2,000,000.00	1,250,000.01 - 1,500,000.00	1,000,000.01 - 1,250,000.00	حر				-		300,000.01 - 350,000.00	250,000.01 - 300,000.00	200,000.01 - 250,000.00	4,285.01 - \$ 200,000.00	\$ 4285.00	(Value of less than:)	Engineer's Estimate of Total Cost of Construction Project

\$1.10	\$0.25 \$7.80 \$155.40	\$1.60	\$2.10																		\$8.50		

Fees for certain tap connections must be estimated based on total labor, transportation, equipment, materials, supplies and indirect or overhead costs. This fee was recommended by the City Auditor to offset the costs of providing these field estimates. Preparation of field estimates requires research of records, a field trip and calculations by Taps Office staff. The fee would discourage frivolous inquiries and would be applied toward the purchase of services if purchased within a one year period from the date of the estimate.

### Austin Water Utility

### Fire Hydrant Meter Fees

good working condition, and verification that the utility billing charges have been paid in full. Charges for damages to the meter or equipment will be charges first, with any remaining amount refunded to the customer. deducted from the deposit, if applicable. The equipment deposit will be refunded in total if the meter and equipment have been returned in good working on a vehicle for use in withdrawing water from a fire hydrant. Backflow prevention assemblies are required to be installed by the contractor and tested by a certified backflow technician and the test report faxed or delivered to Special Services within 48 hours of the meter installation. The non-compliance Water meters are installed on fire hydrants for construction purposes on a temporary basis. Costs associated with fire hydrant meters include an initiation condition, and the utility billing charges have been paid in full. If the utility billing charges have not been paid, the deposit will be applied to the unpaid deposits are to help insure the return of the meter and equipment upon completion of use by the contractor. The equipment deposit does not earn interest, and will be refunded to the customer upon return of the meter and equipment to the Utility, after verification that the meter and equipment is in backflow prevention assembly tested and the test report faxed or delivered to Special Services within the required time period. The meter and equipment removal fee is charged when a fire hydrant meter is removed by the City of Austin due to either an ordinance violation or the contractor failing to have a administrative costs in setting up the account on the billing system. The installation fee covers the field costs for installing the meter on the fire hydrant or fee, an installation fee, a non-compliance removal fee, and a refundable equipment deposit for the meter and equipment. The initiation fee covers

Northwest Austin MUD #1 Negative Surcharge (Rate Credit)
Each single-family residential customer located within the Northwest Austin Municipal Utility District No. 1 receives a monthly adjustment subtracting \$37.68 from their water and wastewater bills. If the individual customer's monthly total of the water and wastewater bill is less than \$37.68, no carryover shall be allowed. This adjustment will continue until the current bond indebtedness of the District is retired or September 1, 2026, whichever is earlier.
